Please leave a review for the Engineering Pro Guides material. Any suggestions on how to improve or comments on what you liked and what you didn't like will be very helpful. *

More theoretical questions!

Did you pass the PE exam? *

Yes

No

If you did not pass, then what was your score out of 80?

How many years of engineering experience do you have at the time of the exam in the fields tested by the exam? *

- 2-3 years
- 3-4 years
- 4-5 years
- More than 5 years

Is this your first time taking the exam? *

- Yes
- No. This is my second time taking the exam.
- No. I have taken the exam more than 2 times.

How many hours did you study for this exam? *

- 0-100 hours
- 101-200 hours
- 201 to 300 hours.
- 301-400 hours
- 401-500 hours
- More than 500 hours

Which references would you recommend for the exam? *

- Personal study notes and cheat sheets.
- NCEES Power sample PE exam.
- Engineering Pro Guides Technical Study Guide
- Engineering Pro Guides References Exam
- Engineering Pro Guides Full Exam
- Complex Imaginary Sample Exams
- How to pass the pe exam - graffeo
- NEC
- Electric Machines, Drives and Power Systems - Wildi
- The Art and Science of Protective Relaying
- IEEE Standards
- NFPA 70E
- NFPA Lightning
- PPI Sample Exams
- Power System Analysis - Grainger
- Electric Machinery Fundamentals - Chapman
- PPI Camara Book
- NFPA 30B
- NFPA 497
- NFPA 499
- NESC

Other:

How did the sample exams compare to the actual exam?

If you did not take one of the sample exams, then please do not answer the question. If there is an exam that was not included on the list, then please discuss in the additional comments section.

Engineering Pro Guides Full Exam

	1	2	3	4	5	
Not like the actual exam at all	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very similar to the actual exam

Graffeo Sample Exam

	1	2	3	4	5	
Not like the actual exam at all	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	Very similar to the actual exam

Complex Imaginary Sample Exam

	1	2	3	4	5	
Not like the actual exam at all	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very similar to the actual exam

PPI Sample Exam

	1	2	3	4	5	
Not like the actual exam at all	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very similar to the actual exam

What do you wish you knew before you started studying?

More theory.

What do you wish you studied/practiced more?

Theory. Nailed all of the math workout problems, needed more theory work.

Additional Comments? Words of advice?

Theory

How did the sample exams compare to the actual exam?

If you did not take one of the sample exams, then please do not answer the question. If there is an exam that was not included on the list, then please discuss in the additional comments section.

Engineering Pro Guides Full Exam

	1	2	3	4	5	
Not like the actual exam at all	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very similar to the actual exam

Graffeo Sample Exam

	1	2	3	4	5	
Not like the actual exam at all	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very similar to the actual exam

Complex Imaginary Sample Exam

	1	2	3	4	5	
Not like the actual exam at all	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very similar to the actual exam

PPI Sample Exam

	1	2	3	4	5	
Not like the actual exam at all	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very similar to the actual exam

What do you wish you knew before you started studying?

What do you wish you studied/practiced more?

Additional Comments? Words of advice?

Look at how the exam changed in from April 2018 on. Would recommend looking into the types of questions that were added (T&D) and less into those that were thinned down. Most study guides will not have caught up to these changes yet.

Not like the actual exam at all	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very similar to the actual exam

What do you wish you knew before you started studying?

The official practice exam only reflected its difficulty, not its content.

What do you wish you studied/practiced more?

Relays, more advanced code problems

Additional Comments? Words of advice?

I left the exam feeling perplexed after the amount of time I studied and the number of practice exams I took (80% average score) - the exam did not reflect anything I have found to study. Is this all just a hazing and money-making scheme? Just know that the results of this exam do not reflect your intelligence.

Please leave a review for the Engineering Pro Guides material. Any suggestions on how to improve or comments on what you liked and what you didn't like will be very helpful. *

I really liked the formula sheet on the back. If you could elaborate on that that would be awesome. I used it often on the test to easily obtain pertinent information for a lot of questions.

Did you pass the PE exam? *

Yes

No

If you did not pass, then what was your score out of 80?

How many years of engineering experience do you have at the time of the exam in the fields tested by the exam? *

- 2-3 years
- 3-4 years
- 4-5 years
- More than 5 years

Is this your first time taking the exam? *

- Yes
- No. This is my second time taking the exam.
- No. I have taken the exam more than 2 times.

How many hours did you study for this exam? *

- 0-100 hours
- 101-200 hours
- 201 to 300 hours.
- 301-400 hours
- 401-500 hours
- More than 500 hours

Which references would you recommend for the exam? *

- Personal study notes and cheat sheets.
- NCEES Power sample PE exam.
- Engineering Pro Guides Technical Study Guide
- Engineering Pro Guides References Exam
- Engineering Pro Guides Full Exam
- Complex Imaginary Sample Exams

Not like the actual exam at all	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very similar to the actual exam

What do you wish you knew before you started studying?

Taking notes as early as possible and creating a notebook.

What do you wish you studied/practiced more?

NEC code questions

Additional Comments? Words of advice?

You don't have to take April or October exam. If you need time wait a year to study and then take the exam. I rather be prepared than rash.

Not like the actual exam at all	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very similar to the actual exam

What do you wish you knew before you started studying?

Know your core very well, half of the test is too difficult to predict what will be asked.

What do you wish you studied/practiced more?

All of it. I thought I failed. The complex imaginary problems are too easy so they are good practice but not a good gauge to know if you've studied enough.

Additional Comments? Words of advice?

The morning test went horrific. I didn't even want to come back for the afternoon. The afternoon went very well. So advice, during the test, don't give up, keep going.

Good

Did you pass the PE exam? *

Yes

No

If you did not pass, then what was your score out of 80?

How many years of engineering experience do you have at the time of the exam in the fields tested by the exam? *

- 2-3 years
- 3-4 years
- 4-5 years
- More than 5 years

Is this your first time taking the exam? *

- Yes
- No. This is my second time taking the exam.
- No. I have taken the exam more than 2 times.

How many hours did you study for this exam? *

- 0-100 hours
- 101-200 hours
- 201 to 300 hours.
- 301-400 hours
- 401-500 hours
- More than 500 hours

Which references would you recommend for the exam? *

- Personal study notes and cheat sheets.
- NCEES Power sample PE exam.

Please leave a review for the Engineering Pro Guides material. Any suggestions on how to improve or comments on what you liked and what you didn't like will be very helpful. *

It was a solid exam

Did you pass the PE exam? *

Yes

No

If you did not pass, then what was your score out of 80?

How many years of engineering experience do you have at the time of the exam in the fields tested by the exam? *

- 2-3 years
- 3-4 years
- 4-5 years
- More than 5 years

Is this your first time taking the exam? *

- Yes
- No. This is my second time taking the exam.
- No. I have taken the exam more than 2 times.

How many hours did you study for this exam? *

- 0-100 hours
- 101-200 hours
- 201 to 300 hours.
- 301-400 hours
- 401-500 hours
- More than 500 hours

Which references would you recommend for the exam? *

- Personal study notes and cheat sheets.
- NCEES Power sample PE exam.
- Engineering Pro Guides Technical Study Guide
- Engineering Pro Guides References Exam
- Engineering Pro Guides Full Exam
- Complex Imaginary Sample Exams
- How to pass the pe exam - graffeo
- NEC
- Electric Machines, Drives and Power Systems - Wildi
- The Art and Science of Protective Relaying
- IEEE Standards
- NFPA 70E
- NFPA Lightning
- PPI Sample Exams
- Power System Analysis - Grainger
- Electric Machinery Fundamentals - Chapman
- PPI Camara Book
- NFPA 30B
- NFPA 497
- NFPA 499

Engineering Pro Guides Full Exam

	1	2	3	4	5	
Not like the actual exam at all	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very similar to the actual exam

Graffeo Sample Exam

	1	2	3	4	5	
Not like the actual exam at all	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	Very similar to the actual exam

Complex Imaginary Sample Exam

	1	2	3	4	5	
Not like the actual exam at all	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very similar to the actual exam

PPI Sample Exam

	1	2	3	4	5	
Not like the actual exam at all	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very similar to the actual exam

What do you wish you knew before you started studying?

I wish I had bought complex imaginary and PPI practice problems. I ran out of problems to work in the last couple of weeks.

What do you wish you studied/practiced more?

Harmonic analysis, electronics, and econ.

Additional Comments? Words of advice?

Use Graffeo and Eng Pro Guide for primary studying. Use Camara to get a different perspective or more in-depth info on topics as needed. Buy all the practice problems you can find to buy and work them.

Please leave a review for the Engineering Pro Guides material. Any suggestions on how to improve or comments on what you liked and what you didn't like will be very helpful. *

I think the study material was great

Did you pass the PE exam? *

Yes

No

If you did not pass, then what was your score out of 80?

How many years of engineering experience do you have at the time of the exam in the fields tested by the exam? *

- 2-3 years
- 3-4 years
- 4-5 years
- More than 5 years

Is this your first time taking the exam? *

- Yes
- No. This is my second time taking the exam.
- No. I have taken the exam more than 2 times.

How many hours did you study for this exam? *

- 0-100 hours
- 101-200 hours
- 201 to 300 hours.
- 301-400 hours
- 401-500 hours
- More than 500 hours

Which references would you recommend for the exam? *

- Personal study notes and cheat sheets.
- NCEES Power sample PE exam.
- Engineering Pro Guides Technical Study Guide
- Engineering Pro Guides References Exam
- Engineering Pro Guides Full Exam
- Complex Imaginary Sample Exams
- How to pass the pe exam - graffeo

Please leave a review for the Engineering Pro Guides material. Any suggestions on how to improve or comments on what you liked and what you didn't like will be very helpful. *

Please add an index to the technical study guide. There is a lot of good info, but it's extremely difficult to navigate when in a hurry on timed exams. An index is the make or break for PE exam references. It is the one and only thing holding your reference material back compared to others like Graffeo.

Did you pass the PE exam? *

Yes

No

If you did not pass, then what was your score out of 80?

How many years of engineering experience do you have at the time of the exam in the fields tested by the exam? *

What do you wish you studied/practiced more?

Additional Comments? Words of advice?

Don't spend too much time on questions that you don't know how to approach, or are completely foreign. Instead come back to them, and remember the simple approach is typically the correct one. After the morning session, take a deep breath, shake off the first half without second guessing everything, and start fresh on the afternoon session.

This is the best practice exam available for the power pe exam. It is a much better representation of the difficulty than even the NCEES official practice exam. The only improvement that can be made is that the version of the practice exam I had did not reflect the new exam specs.

Did you pass the PE exam? *

Yes

No

If you did not pass, then what was your score out of 80?

	1	2	3	4	5	
Not like the actual exam at all	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	Very similar to the actual exam

What do you wish you knew before you started studying?

Most of the practice exams, including the official practice exam do not come close to the level of difficulty of the real exam

What do you wish you studied/practiced more?

Protective relaying

Additional Comments? Words of advice?

The practice exam should shuffle the topics around, rather than testing one topic at a time. This would give a better simulation of the real exam.
